What they're asking to be paid

Desired hourly rate in U.S. dollars by the role they want, based on 580 people who told us what they want in their next job. The bar is the middle half of answers. The dot is the typical ask (the median).

Across everyone who answered, the typical ask is \$7/hr, and the middle half asks for \$5/hr to \$10/hr (based on 585 people).

568 of the 570 who told us their country live outside the U.S. These are not U.S. pay rates.

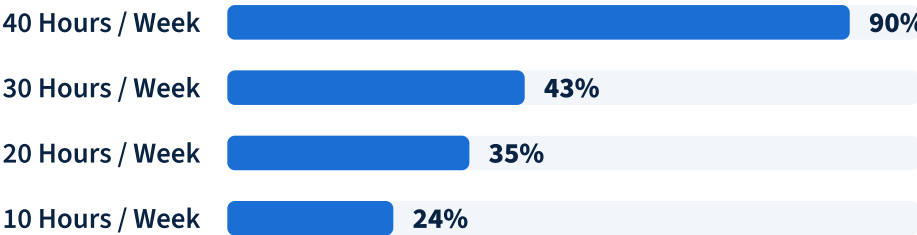

Each row is one role group. "People" is how many answered. Groups with fewer than 5 people aren't shown.

WHAT TO DO

Ways to hire better this year

1. Price by the hour.

Put a rate in the post. For Executive / Personal Assistant, the middle half of asks is \$6/hr to \$10/hr (based on 256 people).

2. Name the work.

Bookkeeping / Accounting VAs ask \$12/hr; Sales / Appointment Setting VAs ask \$6/hr. Say which one you need.

3. Say the hours and the time zone.

99% are comfortable working U.S. hours (based on 638 people). Put your time zone and the hours you need in the first line.

4. Screen for your tools.

Ask about the calendar, inbox, CRM and bookkeeping tools you use. Train the rest.

5. Build the bench before you need it.

Keep a short list of ready people behind every seat, so the next opening is a phone call, not a crisis.

METHOD AND SOURCES

Everything on these pages comes from job applications and screening questionnaires that people filled out for NorthPoint Search Group between January 1, 2024 and November 13, 2025: 640 people, one form per person (their newest). Pay is the desired hourly rate each person gave us; the middle half is the 25th to 75th percentile, rounded to \$0.50. Every number says how many people it rests on. Groups with fewer than 5 people are left out, and no one's individual answer is shown.

Rates are per hour, in U.S. dollars, for the role each person said they want. Answers in another currency, or per week, month or year, are left out. Almost all of our VA applicants live outside the U.S., so these are not U.S. pay rates, and we don't compare them to U.S. government pay numbers. Most of these applications (636 of 640) came in during 2024.
